What is Doorstep Delivery?

It is a library home delivery service. Every month, library materials are chosen according to your preferences and delivered to your home, apartment or living facility. The service is free of charge and conducted by La Porte County Public Library.

Who is eligible?

This service is available to those living in the La Porte County Public Library district who have barriers in coming to the library. These include such circumstances as illness, injury, disability, vision loss, bed-rest, and being homebound. Those with long term or short term needs are welcome.

How does the service work?

After we are contacted, we will visit with you to find out what kind of materials you would like and how many items to bring. Once a month, library materials will be delivered to your home on a regularly scheduled day. Feel free to request specific items and to give us feedback on what you like and don't like.
